

Magnetic Diffuser Lenses

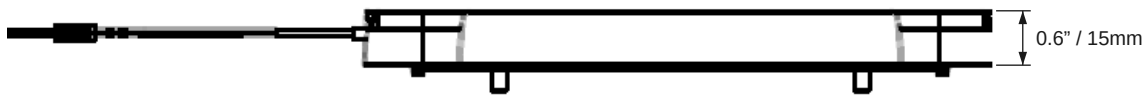

Optional magnetic diffuser lenses widen the CueWash 300B's 10° output for wall washing and grazing. Both versions share the same frame, attach magnetically to the front of the head and include a safety lanyard.

Front view

Isometric view

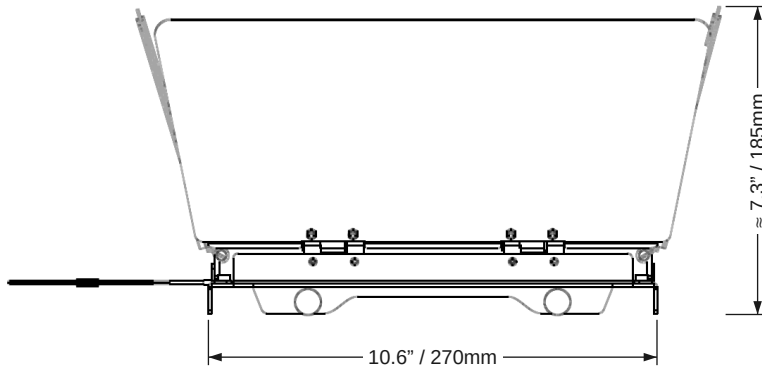

Side view

Item	Width	Height	Thickness	Attachment
30° diffuser lens	10.4" (265.4 mm)	6.9" (174.4 mm)	0.6" (15 mm)	Magnetic + safety lanyard
60° × 10° diffuser lens	10.4" (265.4 mm)	6.9" (174.4 mm)	0.6" (15 mm)	Magnetic + safety lanyard

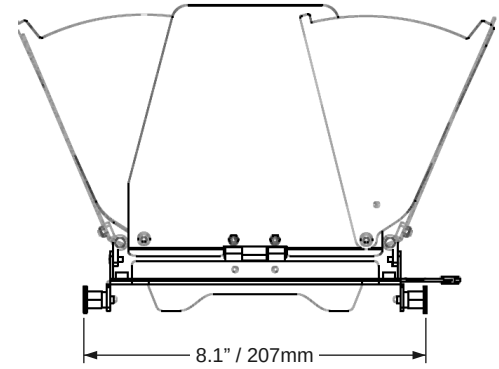

Dimensions shown in inches / millimeters. Fit one diffuser lens at a time, and always attach the safety lanyard when the fixture is rigged overhead.

Barndoors

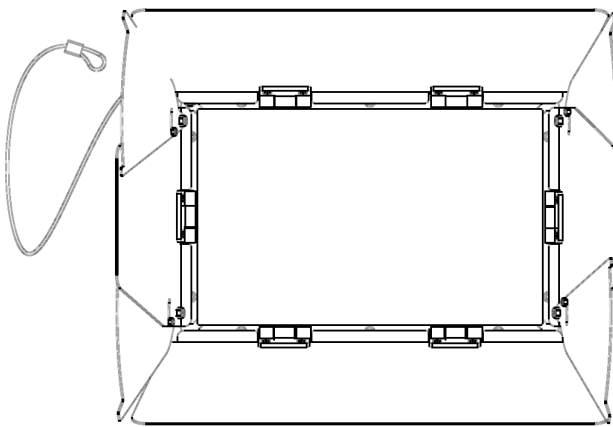

The optional 4-leaf barndoor shapes and cuts off the CueWash 300B's output. It mounts to the front of the head with two locking knobs and includes a safety lanyard.

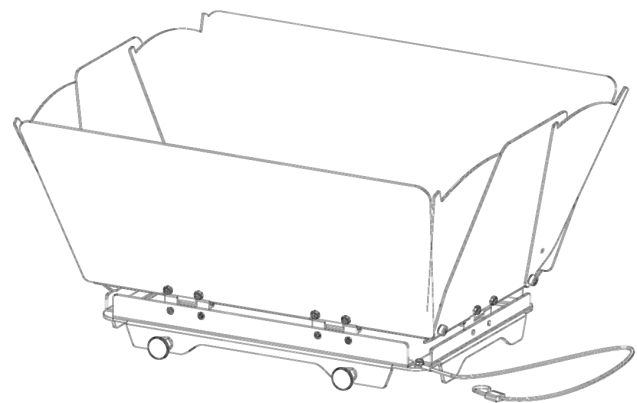

Front view, leaves open

Side view, leaves open

Face view

Isometric view

Dimension	Value
Frame width	10.6 in (270 mm)
Depth across mounting knobs	8.1 in (207 mm)
Overall height, leaves open as shown	≈ 7.3 in (185 mm)
Attachment	2 locking knobs + safety lanyard

Dimensions shown in inches / millimeters. ≈ = approximate; overall height and spread vary with the leaf positions. Remove any diffuser lens before fitting the barndoor.
